Customer Reviews

You may not have heard, but Rob Bell put out a new book. More specifically, Rob and his wife, Kristen, dropped a book last week called The Zimzum of Love: A New Way of Understanding Marriage. (Now that Rob has published a marriage book and Mark Driscoll has resigned from his Mars Hill Church, the eerily-similar career trajectory of these two guys continues to get creepier). The Zimzum of Love is a short, quick read. As with most of Rob's books, it's light and playful, while not shying away from deeper waters. It's good. It's helpful. Did I mention it's short? Is it worth your time? The Zimzum of Love claims to be a new way to understand marriage. Is it? Yes | and no. Depends on who you're talking to. When Rob left his church in 2012, he made a conscious decision to step out of pastoring in a church to pastoring outside the Church. His last book - What We Talk About When We Talk About God - reflects that trajectory, and The Zimzum of Love. In other words, Christians looking for a deep book on marriage should probably go check out Tim Keller's The Meaning of Marriage instead. Rob and Kristen wrote a book on Christian marriage for non-Christian people. The Zimzum of Love is a celebration of the sacramental nature of marriage, grounded in Trinitarian life and love of God. You won't find the word "sacrament" anywhere in the book (and Trinity only once or twice), but that's the point.

This picture of marriage is good news to people who don't know it, but only if they can understand it. Rob and Kristen use language that sounds much more at home on the O Network than in a pulpit.
