Russian I, Third Edition (Comprehensive, 30 Lessons)

Synopsis

The Easiest and Fastest Way to Learn Russian Whether you want to travel, communicate with friends or colleagues, reconnect with family, or just understand more of what's going on in the world around you, learning Russian will expand your horizons and immeasurably enrich your life. The best part is that it doesn't have to be difficult or take years to master. Thirty minutes a day is all it takes, and we get you speaking right from the first day. Pimsleur courses use a scientifically-proven method that puts you in control of your learning. If you've tried other language learning methods but found they simply didn't stick, then you owe it to yourself to give Pimsleur a try. Why Pimsleur? - Quick + Easy - Only 30 minutes a day. - Portable + Flexible - Core lessons can be done anytime, anywhere, and easily fit into your busy life. - Proven Method - Works when other methods fail. - Self-Paced - Go fast or go slow - it's up to you. - Based in Science - Developed using proven research on memory and learning. - Cost-effective - Less expensive than classes or immersion, and features all native speakers. - Genius - Triggers your brain's natural aptitude to learn. - Works for everyone - Recommended for ages 13 and above.

What's Included? - 30, 30-minute audio lessons - 60 minutes of reading instruction to provide you with an introduction to reading Russian designed to teach you to sound out words with correct pronunciation and accent - In total, 16 hours of audio, all featuring native speakers - a Reading Booklet and a User's Guide What You'll Learn In the first 10 lessons, you'll cover the basics: saying hello, asking for or giving information, scheduling a meal or a meeting, asking for or giving basic directions, and much more. You'll be able to handle minimum courtesy requirements, understand much of what you hear, and be understood at a beginning level, but with near-native pronunciation skills. In the next 10 lessons, you'll build on what you've learned. Expand your menu, increase your scheduling abilities from general to specific, start to deal with currency and exchanging money, refine your conversations and add over a hundred new vocabulary items. You'll understand more of what you hear, and be able to participate with speech that is smoother and more confident. In the final 10 lessons, you'll be speaking and understanding at an intermediate level. In this phase, more directions are given in the Russian language, which moves your learning to a whole new plane. Lessons include shopping, visiting friends, going to a restaurant, plans for the evening, car trips, and talking about family. You'll be able to speak comfortably about things that happened in the past and make plans for the future. Reading Lessons are included at the end of Lesson 30 to provide you with an introduction to reading the Russian alphabet. These lessons, which total about one hour, are designed to teach you to sound out words with Russian pronunciation and accent. A Reading Booklet to be used with

the audio lessons is also included in PDF format. The Pimsleur Method We make no secret of what makes this powerful method work so well. Paul Pimsleur spent his career researching and perfecting the precise elements anyone can use to learn a language quickly and easily. Here are a few of his secrets:

- The Principle of Anticipation In the nanosecond between a cue and your response, your brain has to work to come up with the right word. Having to do this boosts retention, and cements the word in your mind.
- Core Vocabulary Words, phrases, and sentences are selected for their usefulness in everyday conversation. We don't overwhelm you with too much, but steadily increase your ability with every lesson.
- Graduated Interval Recall Reminders of new words and structures come up at the exact interval for maximum retention and storage into your long-term memory.
- Organic Learning You work on multiple aspects of the language simultaneously. We integrate grammar, vocabulary, rhythm, melody, and intonation into every lesson, which allows you to experience the language as a living, expressive form of human culture.
- Learning in Context Research has shown that learning new words in context dramatically accelerates your ability to remember. Every scene in every Pimsleur lesson is set inside a conversation between two people. There are no drills, and no memorization necessary for success.
- Active Participation The Pimsleur Method + active learner participation = success. This method works with every language and every learner who follows it. You gain the power to recall and use what you know, and to add new words easily, exactly as you do in English.

The Russian Language Russian, one of the six official languages of the United Nations, is the official language in Russia, Belarus, Kazakhstan and Krygystan, with an estimated 150 million native speakers around the world. Pimsleur's Russian uses speakers from Moscow and St. Petersburg, which accounts for slight pronunciation differences between speakers, but accurately depicts contemporary spoken Russian. Tech Talk - CDs are formatted for playing in all CD players, including car players, and users can copy files for use in iTunes or Windows Media Player.

Customer Reviews

I have finished Pimsleur's three levels of Russian. I need not to mention that this program is very well done and of the highest quality. Instead, I would like to answer those who may be wondering, "how good will I get after finishing all three levels of Pimsleur's Russian?" First of all, be prepared to work hard. It will be fun work, but you will have to concentrate. Some people have to repeat each lesson three times before moving on to the next. I personally had to work through them twice. At the end of level one, you will know the most basic greetings, you will know how to count to one hundred, and most importantly, you will start getting a good "feel" for the language. Don't expect to be able to converse with anyone at this point. Level two explores pronouns and gives you more working vocabulary. The future and past tenses are introduced. Level three explores the complex Russian declensions and gives you a lot more vocabulary. At the end of the three levels, you will still be at a very basic, survival level. You will have a vocabulary of maybe 300-400 words (this is my estimation so I may be wrong). You will be able to engage in conversations but it won't take very long before you don't know how to say something or you don't understand the other person. So if this expensive course is so basic, why bother spending so much money on it? You will pronounce correctly. People will comment on your good, Russian accent. (Ti gavarish bez aktsenta). You will know the most essential words and structures and will have a good "feel" for the language. You will be in excellent position to learn more. The next step after that is to take formal lessons with a private teacher, if you can afford it, and study with another textbook.

I don't know about you, but I don't want to learn a language so I can read a newspaper or understand a radio broadcast. I want to communicate with real live people in their own language. How many people take language courses all through high school and even college only to find when it comes time to actually USE the language, they've "learned" it without the ability to SPEAK it? This doesn't happen with the Pimsleur method. It forces you to respond, continuously moving forward, teaching you new things while reinforcing concepts learned earlier. This series, along with the Penguin Russian course, will take you very far indeed if you want to learn basic

Russian that you can use. The Pimsleur program is far superior to other audio methods in that it's not just repeating incredibly dull phrases over and over again. You interact with the dialogue. You have to THINK and it reinforces things learned earlier at just the right time intervals. A concept is reinforced more often right after learning, but these reminders become less and less frequent as time goes on and you learn new things. But then what you've learned previously becomes part of new concepts and vocabulary that keep getting put before you, reinforcing those concepts even more. The Key is that you RETAIN the concepts and vocabulary and hence the ability to use the language. You learn correct pronunciation, as the program uses native speakers. You won't be tongue-tied, since you're asked questions in the program and you have to THINK about the answer. You THINK because the question might reference something from three or four tapes ago. You use proper grammar despite yourself because you're not thinking about grammar, you're learning the language the same way you learned as a baby - you're USING it. Is there a down side?

Pimsleur are absolutely the best. I have brought the complete sets of three volumes for both French and Russian. I recommend them with glowing enthusiasm to many friends and work colleagues. In fact I would say I rave about them - something I seldom do. I am a fluent speaker of English, German and Japanese. I have taught languages myself and have additionally studied French and Latin in the past. I am something of an amateur linguist with a life-long love of languages. When I speak German (I studied it at university for a year) people's jaws drop because I sound like a native speaker. I love reading Goethe in German and also read technical journal articles on molecular biology, but I really wish I'd discovered Pimsleur earlier. Over the decades I have been exposed to countless different linguistic approaches to learning languages, but none have impressed me as much as that of Pimsleur. I have even ordered CD courses in German from .de from companies such as Langenscheidt. The language CDs available in German are far superior to the vast majority of the courses you can get in the English language, but still only Pimsleur teaches language in the same way that I intuitively learned to learn languages on my own over the years. I am so happy that someone has gone out and 'bottled' the secret techniques of good language learners so that people everywhere can discover how much fun learning languages can be. If you buy cheaper alternatives to Pimsleur you are short changing yourself severely. Costly though you may think they are, enrolling in a course or getting private tuition will cost you as much or probably even more.
