## Customer Reviews

Although my kids have not made it through all the classical series set of books we've purchased I can say the yard beautiful books, well made & a wonderful addition to our homeschool library!

Very interesting book about the Roman Myths. Different approach to telling them and yeast very interesting/

My son loves these books I love that they are enriching his mind and introducing him to the classics in a nonthreatening way. There are some real life tragedies in the book how ever nothing graphic or gory. The author was a principal for gifted children and frankly my children schools do not ever such on mythology for some reason so I felt story time at night was a great way to incorporated it into there early learning. My 8 year old could not put it down story time or not. It was a great intro to the

classics how ever now we are looking for books with color and detail to each story. The benefit of these books having little pictures and no color is the story is left to the readers imagination. The fault in that is some of these words and concepts are to foreign for my boys to come close without looking them up.
