Customer Reviews

Looks to be very practical and helpful. It's an easy read. He provides many of his own experiences and lessons learned the hard way. I have not used it yet. But I am cleaning a couple of things up I want to get out of the way and intend to follow his recommendations. I think it's worth the time and money... And remember to ease into using the information and learn as you go.

I really like this book on Craigslist. It was upbeat, positive, and inspiring. I never knew about the anonymous two-way email system, so that was pretty eye-opening for me. The book serves as a good introduction to Craigslist and if you been thinking about getting started on making money with Craigslist, then you should purchase this book. Five stars

I was looking for a book that went beyond the basics and gave specific, inside tips on how to make money with Craigslist. This book was fit the bill. Lots of great, helpful information that would have taken me years of trial and error to learn on my own.

There are plenty of ideas out there, just go out and get to it. - How do I write Craigslist ads that stand out from the thousands of other ads?
- How do I gain maximum exposure for my ads without being "flagged"?
- What are the common mistakes sellers make

when trying to sell their items on Craigslist?â What are the specific programs and apps that can greatly speed up and simplify my buying and selling?â What if Iâm interested in dealing in specialty collectables? Are there special ways to find bargains on those and sell them for the highest profit? This is the book youâve been waiting for!

This is a very informative book that gives you plenty of ideas. Definitely gives you an inside look on how a successful CL business is planned out and run. It's worth the read!

I have read other books on Craigslist, but this book stands out because of the good inside tips. The author has a good sense of humor too. I give it 5 stars

I learned a lot of new information! I definitely would recommend it to anybody trying to get into the Craigslist business of flipping aka buying low selling high! It's pretty much the model for any business and Craigslist is no different. It has a lot of jewels that I used in the past and this just brought my game to another level!

Very good sound advice on how to optimize and use Craigslist and avoid common mistakes. Make your items for sale really shine and attract buyers. How to play it safe so that both buyer and seller feel safe and comfortable buying and selling items.
