Customer Reviews

We bought two of these books off ebay and I immediately had to see if there were more in the same line. There were two more, which we immediately purchased. Baby LOVES these books. They are clever, interactive, promote speech, and full of beautiful, bright, fun illustrations.

My daughter and I enjoy this book. The illustrations are cute, and cover some of the basic opposites for younger children. I only gave it 4 stars though because I wish it were a bit more durable. My daughter has already ripped some of the flaps accidentally, and I have had to tape them back together.

I'm a big fan of Tad Carpenter illustrations so knew I had to get this series for my sweet little

nephew. The colors are great and the illustrations are charming. My nephew loves this book series!

This is my toddler's new favorite book! I love reading it too, there aren't too many words and the design is really good. It keeps my toddler entertained and he reaches for this book every time.

Great book to read! I love illustration on the book. They are fun to look at and fun to read. I bought other 'I say, you say' series, since my almost two years old daughter love this book.

This is one of the cutest and fun to read lift the flap books we've see. I can easily see this becoming one of our daughters favorite go to books.
