Customer Reviews

This book â œAnimals Of the Australian Outbackâ • belongs to a Childrenâ s Animal book series published by Speedy Publishing. We love Speedy Publishing Childrenâ s book series as they usually come with excellent photos and basic references that are quite suitable for the underage, for those small family members at home, for those parents who love to teach their children at home and this type of books serve well for teaching purposes at school too. This book refers to some of the most well-known Animals from the Australian outback. The Outback is the vast, remote, arid interior of Australia. The Outback has no clearly defined boundaries. Beautiful photographs and short references about the Thorny Dragon, the Frilled-Neck Lizard, The Inland Taipan (the most lethal

snake in the world), the Dingo dog, the Redback Spider, the Camels and the Kangaroos are well depicted on this book with high definition photographs in full color. As this book has beautiful, full colored, high detailed, photographs/pictures you may want to share with your kids and/or students as they can serve as point for further discussions or a way to develop language skill by promoting the children to express themselves about what they see and understand by looking at the photograph or picture. Disclosure: I received this product on a promotional discount for my honest review and they are 100% my own opinions; of course, I do understand that your own opinion may differ from mine and I do respect that in any way. I haven't received any kind of compensation and I am not required to give a good review. I am also not associated with the seller in any way.
