The Voyage Out

Synopsis

Rachel Vinrace, a shy, motherless woman of twenty-four, embarks on a sea voyage from London to South America under the wing of her aunt Helen. For the guileless Rachel, the voyage becomes a journey toward intellectual and emotional maturity through, love, illness, and death.

Customer Reviews

This woman, Virginia Woolf, has to the worst writer in history at bringing in a character by their first name and then a few pages later referring to them by the last. Many more characters are introduced but never take part in the major action. This book, about a voyage to the , shows that Virginia never actually took a ocean voyage, and nor does she know anything about Brazil. I am told that I am missing the real message and that Virginia was trying to speak to women who were reduced to submissive domestic roles. At that she apparently does OK as most the women who read the book seem to have found it interesting

Do not buy this particular version. It is formatted incorrectly and the text columns only fill about half the screen. The other free version of this book is also seriously flawed. The only one I've found to be correct is the ~\$6 version.

This first novel i probably Woolf' finest, and is less conventional and certainly less boring than "Night and Day". The fact that is is early Woolf does not mean that is immature. Purchase it without hesitation, even if you do not own the text.
