Customer Reviews

I liked this very much and thought it was well done and with some adventure and a bit of a mystery in it as well with a happy and good ending sure to please both parent(s) and child so for these reasons I want to give this five and recommend it for kids especially in the age level of 3-7. I received this ebook for free and in return, here is my honest review. Great job Amma! By Angela

For the amount of money I paid for this book I was expecting a bit more. The pictures were cute and

the story was cute but I feel as though it could have been written better. I also feel that it could have been a bit longer also. There are a lot of childrens stories to download that are cheaper if not free that are quite a bit longer. But this one also did have a picture on every page which was nice because a lot of those cheaper or free ones also have fewer pictures and that is something my 3 year old daughter loves to look at with me as I read her to sleep. Maybe the author could offer a package deal or something. Maybe 2 short books for this price?

I hope more books for kids! I have a 7 years old kid... He's very enthusiastic to read other book!

don't buy it very dump book take kattie adventure trip to mars take that very good book i liked that very much BAD BOOK DON'T BUY IT if you want you can
