## **Customer Reviews**

You know sometimes it's hard to deal with your job co-workers, because everybody has different ideas or point of views and that can take you to a problem or bad relation with them. I got this book a few days ago and is a fantastic guide with many tips and ways to teach u how to improve your relation skills with people. How to use your charisma, to increase the ability to listen to others, to identify your empathy with others are some of the many things that you can learn and start to use and practice in your day by day. From confidence in yourself and your actions to building up self-esteem in order to overcome obstacles; and the willingness to help the rest of the key people of your team. Totally recommended, really good reading.

This is a perfect book to read if you are searching for the best one that will give a thorough set of information and the essential knowledge you will use in preparing yourself in becoming a Leader. It also has some good points about management and how one can have the management skills needed for a leader. But what is worth noting is how this book has stressed on respect. Especially respect for other people, since it believed that leading thru fear will not yield good results. This book is educational, worth reading and considering.

Some people are born with a natural tendency to lead others, whilst many people are simply looking for someone to provide them with safety, nurture and support. There is an essential demand for all types of people; leaders are not necessarily the best people to actually get the job done. They are the ones that can motivate and inspire people with the necessary skills; this is why it is essential to

acknowledge every member of a team. I learned a lot from this book and it became a huge part of the milestone I am executing in my work life and personal life as well.

pretty informative! I have read this book and find it to be a current and exceptional leadership tool. Use this book to learn from the best and then pass it on. Then you will understand what it is to be really successful. I highly recommend this book to anyone in a leadership role!

Like this book! I have learned a lot from this book. I have learned the key principles in becoming a great leader! It is not easy to become a great leader. It takes a long time to become one. Through this book, I have learned the importance of honesty, communication, confidence, ability to listen, and being optimistic. I have also learned that giving comments or feedback to your subordinates help build your management skills. Also, as a leader, you should always recognize the achievements and criticize your subordinates in a healthy way. The book also thought me how to effectively communicate to all the people. Thumbs up to the author for writing such book! !

What a very inspiring and motivating book I had Read! This book was a good resource and reminder of leadership and its importance. I appreciated much of what it had to say regarding making a first good impression, motivating staff and managing change; it also covered effective delegating strategies and dealing with difficult people. You may find most of these topics familiar and you would be right, however it is easy reading and a good reminder of why leaders chose to lead. So much worth reading book!

I am always required to take course in leadership development. This book has all the elements of a leadership seminar but is written in a concise to the point manner. You will find value in the leadership quotes nestled in the book as you go. This book shares some quick and easy steps to be a successful leader that people respect. Some things are just removed we all need to remind ourselves as we get caught up in work and the ever changing environment most of us are a part of.

Have always wished to effectively motivate and communicate with people to effortlessly lead them to the peak of success. Overtime since I was unable to do such I felt it was an innate talent of which I lacked but have come to realize how to lead and at the same time influence people after going through this piece which clearly outlined the tips and tricks needed to display such oratory skill in no time.
